Andrea,
In addition to the previous email of a small sample of local signs established in Vienna including logos, color, and symbols, attaching our letterhead. Please distribute, as well as our website, Welcome To Dr. Goldberg & Associates - Dr. Noel Goldberg which highlights our colored logo (gold and carolina blue) on each page of our website so that the committee can become more familiar with our multi-office practice, what we do, and how the logo works to describe what we do with pictures or symbols. I also want to remind you of the stigma attached to seeing a psychologist and obtaining mental health, and our goal to continue to reduce that stigma so that individuals can obtain necessary treatment to prevent complications for not obtaining services including the increase in suicides, increase in deaths from drug overdose to include prescription pain killers, and ongoing depression/anxiety. Our goal in each community we serve is to improve the lives of the individuals we are priviledged to serve. Hence the importance of having both recognition on our large sign on Maple Avenue and reducing the stigma of obtaining treatment.

Thank you for your reconsideration, and please let me know when the next meeting is for me to attend.
