Subject: Signs around Vienna,
Date: Sunday, April 21, 2019 11:40:23 AM

I am a little confused at the decision to exclude our logo (which is on every correspondence we have, notes, documents, signs) when a simple drive around my neighbors on Maple Ave yielded color signs with logos incl Jack Well dentist with a huge walrus and toothbrush, Remax with their balloon, Tyson's surgical with its surgery symbol... our logo is a depiction of what therapy is, 2 minds talking to each other trying to solve a puzzle and represents our practice with 4 locations. We even honored not having our website (in our logo) displayed, and would like to come to the next meeting and present acceptable variations using our trademarked logo, preferably in color using Jack Well'a color sign as a precedent.
Thank you in advance for your re-consideration
Dr. Goldberg
