Termination of the contract under this section is without prejudice to any other rights or remedies of the Town.

The Contractor shall not suspend the work without the written authority from the Town and shall proceed with the work promptly when notified by the Town to resume operations. The time in which work is suspended by written order for reasons not connected with the Contractor's failure to perform or improper performance shall not be charged against time for completion of contract.

9.8. Work Site Damages

Any damage, including damage to private property, resulting from the performance of this Contract shall be repaired to the Owner's satisfaction at the Contractor's expense.

9.9. Warranty & Correction of Work

A. The Contractor warrants to the Owner and the A/E that all materials and equipment furnished under this Contract will be new unless otherwise specified, and that all Workmanship will be of first-class quality, free from faults and defects and in conformance with the Contract Documents and all other warranties and guaranties specified therein including those of the manufacturer. Where no standard is specified for such Workmanship or materials, they shall be the best of their respective kinds. All Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective. If required by the Owner, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

The Work included in this Contract is heretofore specified. The Contractor will be required to complete the Work specified and to provide all items needed for construction of the project, complete and in good order.

B. The Contractor guarantees and warrants to the Owner all Work as follows:

1. That all materials and equipment furnished under this Contract will be new and the best of its respective kind unless otherwise specified;
2. That all Work will be of first-class quality and free of omissions and faulty, poor quality, imperfect or defective material or Workmanship;
3. That the Work shall be entirely watertight and leakproof in accordance with all applicable industry customs and practices, and shall be free of shrinkage and settlement which are attributable to defective materials or Workmanship;
4. That the Work, including but not limited to, mechanical and electrical machines, devices and equipment shall be fit and fully usable for its intended and specified purpose and shall operate satisfactorily with ordinary care;
5. That consistent with requirements of the Contract Documents the Work shall be installed and oriented in such a manner as to facilitate unrestricted access for the operation and maintenance of fixed equipment; and
6. That the Work will be free of abnormal or unusual deterioration which occurs because of poor quality materials or Workmanship.

C. All Work not conforming to guarantees and warranties specified in the Contract Documents, including substitutions not properly approved and authorized, may be considered defective. If required by the Owner, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

D. The Contractor shall within five (5) Working days after receipt of written notice from the Owner during the performance of the Work, reconstruct, replace or correct all Work rejected by the A/E or Owner as defective, as failing to conform to the Contract Documents, or as not in accordance with the guarantees and warranties specified in the Contract Documents whether observed before or after Substantial Completion and whether or not fabricated, installed or completed. The Contractor shall bear all costs of reconstructing, replacing or correcting such rejected Work, including compensation for the A/E's additional services made necessary thereby.

E. If, within one (1) year after the Date of Substantial or Final Completion of the Work or designated portion thereof or within one (1) year after acceptance by the Owner of designated equipment or within such longer period of time as may be prescribed by law or by the terms of any applicable special warranty required by the Contract Documents, any of the Work is found to be defective, not in accordance with the Contract Documents, or not in accordance with the guarantees and warranties specified in the Contract Documents, the Contractor shall correct it within five (5) Working days after receipt of a written notice from the Owner to do so unless the Owner has previously given the Contractor a written acceptance of such condition. This obligation shall survive termination of the Contract. The Owner shall give such notice promptly after discovery of the condition.

F. Subject to limitation as prescribed by law, if at any time deficiencies in the Work are discovered which are found to have resulted from fraud or misrepresentation, or an intent or attempt to defraud the Owner by the Contractor, any Subcontractor or Supplier, the Contractor will be liable for replacement or correction of such Work and any damages which Owner has incurred related thereto, regardless of the time limit of any guarantee or warranty.

G. Any materials or other portions of the Work, installed, furnished or stored on site which are not of the character or quality required by the specifications, or are otherwise not acceptable to the Owner, shall be immediately removed and replaced by the Contractor to the satisfaction of the Owner, when notified to do so by the Owner.

H. If the Contractor fails to correct defective or nonconforming Work, or if the Contractor fails to remove defective or nonconforming Work from the site, as required by the Owner, the Owner may elect to either correct such Work or remove and store materials and equipment at the expense of the Contractor. If the Contractor does not pay the cost of such removal and storage within ten (10) days thereafter, the Owner may upon ten additional days written notice sell such Work at auction or at private sale and shall account for the net proceeds thereof, after deducting all the costs that should have been borne by the Contractor, including compensation for the A/E's additional services made necessary thereby. If such proceeds of sale do not cover all costs which the Contractor should have borne, the difference shall be charged to the Contractor and an appropriate Change Order shall be issued. If the payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the Owner.

I. The Contractor shall bear the cost of making good all Work of the Owner, separate contractors or others, destroyed or damaged by such correction or removal required under this Article.

J. If the Owner prefers to accept faulty, defective or nonconforming Work, he may do so instead of requiring its removal and correction, in which case a Change Order will be issued at Owner option, to reflect a reduction in the Contract Sum in an amount to be determined by the Owner.

K. Subject to limitation as prescribed by law, nothing contained in this Section shall be construed to establish a period of limitation with respect to any other obligation which the Contractor might have under the Contract Documents. The establishment of the time period of one (1) year after the Date of Substantial or Final Completion or such longer period of time as may be prescribed by law or by the terms of any warranty required by the Contract Documents relates only to the specific obligations of the Contractor to correct the Work, and has no relationship to the time within which his obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to his obligations other than specifically to correct the Work.

9.10. Contractor's Title to Materials

No materials or supplies for the work shall be purchased by the Contractor or by any Subcontractor subject to any chattel mortgage or under a conditional sales or other agreement by which an interest is retained by the seller. The Contractor warrants that he has clear title to all materials and supplies for which he invoices for payment.
