

Council Member Baldwin:

1. Implementing the Parks Master Plan – deciding about the Beulah Rd property, the Robinson property, and the Annex property.
2. Updating the Comprehensive Plan – including how to get more diversity in housing and Code Create pinned items including the parking process, and how to resolve 444 Maple Ave W.
3. Achieve our legislative goals (short term but necessary for next two months to keep them on top of the agenda for our meetings) including No Casino, Yes to Gambling Commission, and funding to buy the Vienna Trust building.
4. Modern cell phone service, particularly to the center of town.
5. Quality of Life issues such as deer herd control, commercial loading and unloading times, invasive plant control, leaf blowers, etc. – all the issues that town residents contact us about but which by themselves wouldn't get on the list of 4 top priorities.
