Dear Daniel Leber:

The Departments of Planning and Zoning and Public Works hereby grants administrative approval to the above referenced site plan. This plan is approved with the following conditions:

- The conditions of the interim site plan on sheets C-0600 and C-0601, within the site plan for redevelopment approved 06/09/2021, must be achieved within 45 days of this approval letter to resolve the outstanding zoning violation, case no. 24-208, dated May 8, 2024.
- Per the Board of Architectural Review decision issued on 1/16/2025, the fence approval is conditioned on construction starting at the latest December 2025. After that date, a new Board of Architectural Review approval is required to retain the fence onsite unless a Fairfax County Building Permit has been obtained for the development of the site.

Any alterations or construction of any building not already shown in the referenced site plan will require a submittal of a new site plan. Additionally, the disturbance of land not already shown in the reference site plan will require a submittal of an amended or new site plan. Do not hesitate to contact me should you have any questions.

Sincerely,
