

CITIZEN NOTICE

NUTLEY STREET CULVERT REPLACEMENT

Town Council Consideration of Construction Contract at the October 28, 2024 Regular Meeting

October 7, 2024

Dear Property Owner,

At the October 28, 2024 meeting at 7:30 PM in the Town Hall Council Chamber, the Vienna Town Council will consider authorizing funding for the construction contract for the Nutley Street Culvert Replacement project.

The Nutley Street storm water culvert system includes an existing triple barrel, 36-inch diameter culvert that crosses under Nutley Street near the intersection with Virginia Center Boulevard and Marshall Street. This project mitigates flooding issues associated with the undersized culvert and the proposed design will replace the existing culvert with twin 10-foot by 6-foot culverts with an updated hydraulic and hydrologic analysis, traffic control, and technical specifications. Additional information is available on the project's webpage located at <https://www.viennava.gov/your-government/town-departments-at-your-service/public-works/town-project-updates/public-works-project-updates>.

You are welcome to attend the Council meeting. Additional information on the proposed format of the meeting, options for electronic viewing and resources to submit electronic or written comments are also available on the Town Council webpage located at <https://www.viennava.gov/your-government/town-council>. As a reminder, this meeting is for Council deliberation on funding and will not involve resident feedback regarding the project.

Please contact me directly with any questions at 703-319-8610 or email alan.chen@viennava.gov.

Sincerely,

A handwritten signature in black ink that reads "Alan Chen".

Alan Chen, P.E.

Deputy Director of Engineering
