Project Description

Project Description:

This project includes the addition of two new two-way drive-through ATMs located in the front hard setback of the existing NFCU HQ2 building. The site is a grass field with sparse trees. We propose to build a new driveway to accommodate the ATMs and a fabric tensile structure to provide shade and cover from the weather.

The new driveway approach will accommodate up to twelve stacked vehicles within the new drive area without backing up on to the campus roadways or parking lots.

These two new ATMs are intended to replace the two existing ATMs on the HQ1 building site. The existing ATMs are anticipated to be removed as soon as the new ones are constructed.

A Conditional Use Amendment will be required by the Zoning Department to allow drive-through ATMs to be located in the front yard setback of the property.

A BZA variance order is included in the enclosed documentation. (BZA-25136)
