

Attachment 02: Proposed Edits of Sec. 18-213. Lot coverage.

ARTICLE 2. - ZONES, DISTRICTS, AND DIMENSIONAL STANDARDS

Proposed Text

Sec. 18-213. Lot coverage.

1. **Lot coverage.** Calculated result of dividing the total area of a lot that is considered to be covered by the total area of the lot. The total area considered to be covered is measured by the sum of the area covered by principal buildings; accessory buildings; automobile parking spaces and access, whether solid surfaces or gravel; porches and stoops; sport courts and tennis courts; and patios and terraces. The following areas are not considered as part of covering a lot: walkways and sidewalks that are 5' or less in width; stairs and ramps; the area of water within swimming pools, hot tubs, spas; 5' areas, from edge of water, serving as a walkways around pools; tree houses and play structures; and retaining and decorative walls. Other surfaces not listed may be considered, or not considered, lot coverage through a determination by the Zoning Administrator based on similarity to the surfaces discussed in this section.

Existing Text

Sec. 18-213. Lot coverage.

1. **Residential lot coverage.** Percentage of a lot that is measured by the sum of the area covered by buildings, accessory buildings, automobile parking spaces and access, stoops, sport courts, tennis courts, patios and terraces divided by the total lot area.
