30"X30"/144=6.25 SF

30" Dia. Box Sign (Illuminated)

SIDE

CODE ALLOWANCE

The site is zoned as CM (Limited Manufacturing).
 Sign area: A total limit of two (2) square feet of sign area is permitted for each linear foot of commercial or industrial building frontage.
 Exterior signs.

1. Any exterior sign shall pertain only to a use conducted within the building and shall front the principal street, a parking area on the rear portion of the lot, or in the case of a corner building, on that portion of the side street wall within 50 feet of the principal street.
 In no case shall a sign project above the roofline or be displayed on a rear wall of a building so that it is visible in a residential zone except as permitted in sections 18-184 C.3 and 18-184 C.4.
 All exterior signs shall serve the primary purpose of identifying the business and/or profession conducted on the premises, but may also include reasonable product information as is approved by the Board of Architectural Review established by chapter 4.
2. All exterior signs attached to a building shall be flat against the building and parallel with its horizontal dimension.
3. An exterior identification sign not to exceed 12 square feet or four feet in length may be attached to the rear wall of a building, provided that such sign is flat against the building and parallel with its horizontal dimensions, that it is not lighted, and that the building has a rear entrance for its customers.
4. All exterior signs attached to canopies which are structurally a part of the building and all exterior signs attached flat against a building with less than 18 inches between the top of the display window and above the roofline may project three feet above the roofline but not exceed 4½ feet in total height, provided such signs shall be opaquely shielded and hooded from any immediately adjoining residential property.
