MODIFICATION MEMO-The Grove on Park aka Vienna Courts

We are here to seek approval for extra windows that were mistakenly left off the previous material approval. It was always our intent to maximize fenestration and avoid large expanses of siding at especially at visually impactful sight lines. Building 12 and 8 excluded one window on the left side garage and one on the upper story left side. Four windows on the 1st and 2nd story left side of buildings 2, 4, 5, 6, 7, 9, & 11. Additionally, the pictures should clarify the railings previously approved.

Conceptual Site Plan

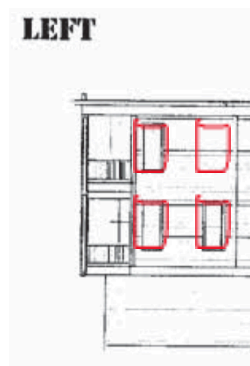

New Proposed Windows: Two additional windows are proposed for buildings 8 & 12 and four additional windows on buildings 2, 5, 6, 9, & 11. Window to have the same size and vertical placement as the adjacent window on the same floor. Windows to have the same manufacturer and model as previously approved.
