4. Age range

 I am a renter.  
 I am a homeowner.

9. Do you support allowing accessory living units (ALU) in residential neighborhoods in the Town of Vienna. Choose one of the following.

10. Do you support allowing accessory living units (ALU) in residential neighborhoods in the Town of Vienna. Choose one of the following.

	NUMBER OF RESPONSES	PERCENTAGE OF RESPONSES
Interior (basement)	597	73%
Attached to main house	484	60%
Detached building	373	46%
Converted garage	459	56%
Above garage	557	69%
None of the above	123	15%

### ACCESSORY LIVING UNITS

An accessory living unit (ALU) is a small residence that is located on the same property as another larger residence. An ALU is an independent, self-contained living space, with its own kitchen or kitchenette, bathroom and sleeping area.

This

can be located within the main house or as a separate building on the property. - Typically any structural additions or detached structures are included in the lot coverage calculation in the same manner as houses and garages.

If accessory living units are included in the zoning code, then the following items will be considered by Town Council: location and setbacks, additional screening, occupancy (e.g. one person per ALU), parking (e.g. one dedicated space per ALU), unit size, height limits, etc.

### *Examples of accessory living units*
