

PROPOSAL

Exterior Light Replacement

In the following image you will be able to see the existent location of the exterior lights at the school. There are a total of ten lights around the school. Some are normal sconces and others are flood lights.

This proposal is to prove we'll be replacing those lights for county approved lights.

200W Equivalent Integrated LED Bronze Outdoor Residential Wall/Flood Light, 3000 Lumens

PRODUCT DIMENSIONS

New proposed lights highlights

Powerful, efficient and incredibly versatile, this 3000 lumen LED security light can be customized to any residential environment by adjusting the color temperature from warm white light (2700K) to daylight (5000K). Its precision optics and wide beam will cover large backyards, fence perimeters and driveways with bright light, while remaining neighbor-friendly. The fixture's die-cast aluminum housing is painted with a corrosion-resistant powder formulated to hold up even in wet locations for over 50,000 hours of maintenance-free use. Hands-free installation is simple

and safe and the 28-watt LED uses 85% less energy than standard bulbs, saving more than \$45 annually on utility bills, well beyond Commercial Electric's 5-year warranty.
