Version 2	MM/DD/YY
Version 3	MM/DD/YY

3 proof revisions included with deposit.
Each additional revision is \$25.

Quantity: 1

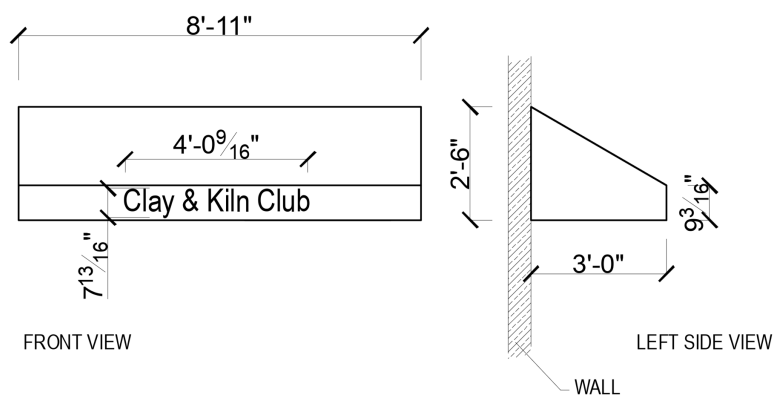

Size: 107"x30"

Description

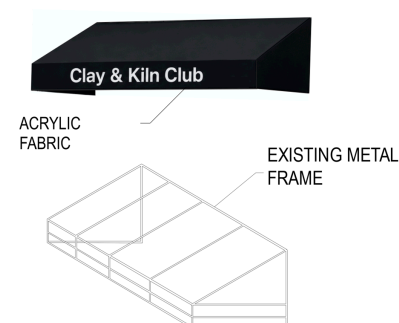

The awning application to the existing 1" thickness metal frame. Awning will be fabricated using premium 9 oz. solution-dyed acrylic fabric, similar to Sunbrella, approximately 0.6 mm (0.024") thick, offering excellent UV resistance, colorfastness, water repellency, mildew resistance, and long-term outdoor durability.

Measurements

Scale: NTS

Details

Please check your proof carefully. This proof drawing is your review and approval before production begins. Signed approval indicates that you have read and approve of all specifications stated to include but not limited to spelling, dimensions, colors, and fixtures. Customer may be financially liable for re-done work if there are changes made after this proof is approved.
