

Door-to-Door Petition

444 Maple Ave. W

We, the residents of Vienna, as signified by our signatures below,

believe the Town Council of Vienna should turn down the 444 Maple Ave application at the August 20th hearing and send the design back to the drawing board; put the MAC zoning regulations on hold to allow proper time for review and re-wording to make them consistent with smart growth and MAC's original intent "to ensure that development along the corridor promotes Vienna's small-town character and does not compromise the character of residential neighborhoods."
