The Town of Vienna Zoning Ordinance does not distinguish between professional office and medical office. Given the Town Council concerns with the parking demand generated by a medical office, the Applicant agrees to limit the percentage of medical office to 50% of the total square footage of the building.

The Applicant respectfully requests Town Council approval of a site plan modification for the above referenced items with a condition indicating that retail and restaurant uses will not be permitted and no more than 50% of the square footage provided on the property shall be medical office use.

Current Request

- ❑ The unit mix reached that maximum in October 2021 as shown in the chart to the right.
- ❑ The condo board is requesting to remove the 50% medical use restriction that was tied to the parking reduction.
