Enter Color and Other Information or Instructions in Yellow Block to the Right								
Use this spread sheet to configure your vehicle. <u>You will only need to use a separate column if you are ordering multiple vehicles with different options.</u> The only thing you need to enter into the spread sheet are the quantity numbers for the base vehicle and each option you want to order. This information is entered in the yellow column. The only time you need to use more than one column is when you are ordering multiple vehicles with different options. When you are done save the spreadsheet to your hard drive. Log into to eVA. When you get to the add items page click on the non-catalog tab. Enter your description as follows. Pickup Truck(s) per contract <Enter Contract Number>. See attached spread sheet. When you get to the comments section of the requisition, check the attach comments box and select the attach file option and attach this spread sheet as your attached file.					For Dealers: This spread sheet was designed so that ordering agencies can give you a break out of vehicles for your purchase order. You need to read this spread sheet by columns. Each of the columns allows an agency to order multiple vehicles with different option packages and gives you totals for each.
