

Draft Basic Layout for tree locations along Cherry Street at
Vienna Community Center

Community Center

Parking Lot at the Community Center

Lot Entrance

NS-Norway Spruce

SS-Serbian Spruce

CJ-Cryptomeria
Japonica

SM-Southern
Magnolia

Green Triangles –
existing trees

Cherry Street

Distances not to scale

Amplifying Information

- The diagram is in Draft form until approved by the ARB and Vienna Town Council.
- The distances are not to scale. I plan on about 13 feet between trees already planted and the evergreens I would like to plant.
- I would like to plant the Summer Magnolia to the left, in an open area closer to the Community Center. The other two trees in the left section are a Norway Spruce and Serbian Spruce.
- In the right section from the drive in to the parking lot is a Serbian Spruce, then Norway Spruce with a Cryptomeria Japonica toward the corner of Cherry & Mill Street.
- With the coordination with Mr. Lawrence, we believed this was ample room for all the trees to grow, be healthy and provide a privacy screen.
