If the delay lasts longer than thirty (30) days, the Authorized User may immediately cancel the order with written notice to Supplier.

In addition, in the event the Supplier fails for any reason to deliver within thirty-five (35) days of the agreed upon delivery date set forth in the order/schedule, the ordering Authorized User, at its own discretion, may give Supplier oral or written notice of breach, provided that Supplier shall not be in breach if delayed delivery is due to a Force Majeure event. Once notice by such Authorized User is sent or given, the Authorized User may immediately procure the undelivered items or items substantially similar thereto, from another source. Once the Authorized User has effected a purchase from an alternate source (in accordance with the Virginia Public Procurement Act, §§ 2.2-4300 et seq. of the <u>Code of Virginia</u>), the Authorized User may charge-back Supplier, in which case Supplier agrees to reimburse the Authorized User for any reasonable difference in cost between the original contract price and the

Authorized User's cost to cover from the alternate source, provided that the Authorized User has taken reasonable steps to mitigate such costs. In no event shall any Authorized User be held to pay Supplier any costs incurred by Supplier, including but not limited to ordering, marketing, manufacturing, or delivering the item(s) which are subject of such Authorized User 's notice of breach. Notwithstanding the foregoing, the Authorized User reserves any and all other remedies available at law or in equity.

VITA and Authorized Users agree that no such damages or reimbursements shall apply in instances of delivery delays beyond Supplier's control, including industry wide shortages, constrained markets, acts of God, war, terrorism or any other factors beyond Supplier's control.

Such Authorized User shall commence Acceptance testing within five (5) days, or such other period as agreed to in writing between Authorized User and Supplier, after Receipt/installation of the Product. Acceptance testing will be no longer than ten (10) days, or such longer period as may be agreed in writing between Authorized User and Supplier. Supplier agrees to provide to the Authorized User such assistance and advice as the Authorized User may reasonably require, at no additional cost, during such Acceptance testing, other than pre-approved travel expenses incurred which are reimbursable by the Authorized User at the then-current per diem amounts as published by the Virginia Department of Accounts. Any such travel expenses must be preapproved by the Authorized User and shall be reimbursable by such Authorized User at the then-current per diem amounts as published by the Virginia Department of Accounts http://www.doa.virginia.gov/, or a successor URL(s)). Authorized User shall provide to Supplier written notice of Acceptance upon successful Acceptance testing. Should Authorized User fail to provide Supplier written notice of successful or unsuccessful Acceptance testing within fifteen (15) days following the date of invoice, the Product(s) shall be deemed Accepted. However, the right to accept or reject Products is not the only remedy that Authorized User shall have with respect to product return, as Authorized Users may return Products within the terms of Supplier's applicable Return Policy at www.dell.com/returnpolicy or request warranty services in accordance with the applicable warranty or service agreement.

#### F. Cure Period

Supplier shall correct any non-conformities identified during Acceptance testing and re-submit such previously non-conforming Product for re-testing within fourteen (14) days of written notice of non-conformance, or as otherwise agreed between the Authorized User and Supplier in the applicable order. Should Supplier fail to take reasonable steps to cure the non-conformity or deliver Product which meets the Requirements, such Authorized User may: (i) reject the Product in its entirety and recover amounts previously paid hereunder, provided the Product is returned to Supplier in accordance with Supplier's reasonable instructions in accordance with Supplier's return policy at www.dell.com/returnpolicy.or (ii) conditionally accept the applicable Product while reserving its right to revoke Acceptance if timely correction is not forthcoming. Failure of a Product to meet, in all material respects, the Requirements after the second set of acceptance tests may constitute a default by Supplier. In the event of such default, the Authorized User may, at its sole discretion, terminate its order, in whole or in part, for the Product and any Services to be provided thereunder by Supplier.

#### **G.** Product Discontinuation

During the term of this Contract, if any Product listed on <u>Exhibit C</u> is discontinued, Supplier agrees to work with VITA to establish a substitute reasonably acceptable to VITA. Additionally, for all systems under service contract, Supplier shall make available to the Authorized User maintenance parts for discontinued Product for five (5) years from the date of such discontinuation, as long as the parts remain commercially available.

#### **New Products**

The Parties will update <u>Exhibit C</u> upon mutual written agreement when technology changes or new products are offered by Supplier that are within the scope of the original Request for Proposal (i.e Chromebook). Price discounts for new products that do not currently fall into a pricing category previously agreed upon and included in Exhibit C will be negotiated between the Parties in good faith. All new products must meet or exceed the applicable product specifications within the original Request for Proposal unless agreed to otherwise by the Parties. VITA reserves the right to review and reject any proposed new products that may not meet the minimum required discount levels.

- **H.** Authorized User or Third Party Support
  - **1.** Documentation and Support Availability

In the event that VITA terminates this Contract, Supplier shall provide all the necessary user and installation documentation and maintenance and repair training reasonably required to enable any Authorized User of reasonable skill standard for the industry to maintain and repair the Product itself or to obtain support and maintenance services from a third-party. Supplier shall also provide the documentation and training necessary to allow any Authorized User to self-maintain to the subcomponent level. VITA acknowledges that any additional training may result in additional cost.

2. Timeliness and Price

Supplier agrees to make the above-referenced documentation, training and spare parts and components available within thirty (30) days following receipt of a written request, and at a price set forth in <u>Exhibit C</u>, such price not to exceed Supplier's published price list, or the fair market value. In addition, Supplier agrees to sell Product, as set forth in <u>Exhibit C</u> attached hereto, to any Authorized User's third-party maintenance provider under contract with such Authorized User, at the prices as set forth in <u>Exhibit C</u>, for the sole purpose of supporting the Authorized User's installed inventory. #### 10. ORDERS AND COMPENSATION

**A.** Supplier Quote and Request for Quote

Should an Authorized User determine that a competitive process is required to ensure it receives the best value, such Authorized User may, at its sole discretion, on a case-by-case basis and upon approval by

VITA, use a Request for Quote (RFQ) process to obtain product identical or similar to that provided by Supplier pursuant to this Contract. The RFQ process is typically used when an Authorized User requires a complete solution that may be fulfilled by Products and Services herein, but whose complexity or size may result in economies that could not be passed on to the Authorized User within the confines of the established contract catalog discount pricing. When an RFQ is used, the project timing and requirements will be clearly outlined in the RFQ document. In some situations, the Authorized User may not identify the exact specifications required. If that is the case, the RFQ respondents will be given the opportunity to identify and propose their recommended specifications.

In cases where the RFQ process is invoked, the Authorized User will issue an RFQ describing its requirements to potential suppliers, and suppliers will provide, at their discretion, within the timeframe specified in the RFQ, a detailed Statement of Work (SOW)-based quote. Any quote submitted to the Authorized User as a result of this process shall include (a) a detailed description of each item proposed, at the <u>Exhibit C</u> line item level, (b) the quantity of each such item, (c) the contract price, (d) any additional percentage discount offered, and (e) an extended/total price. Any additional percentage discount offered shall apply only to the specific RFQ requesting such and shall not affect or change the pricing under Exhibit C of this Contract or pricing provided under any other RFQ.

Generally, the Authorized User will select the supplier offering the lowest total cost proposal. However, non-price factors may be included in the evaluation criteria for a given RFQ. Any purchase from Supplier that is a result of the RFQ process shall be subject to the terms and conditions specified and outlined in this Contract and any subsequent modifications. Additional terms and conditions may be requested or mandated within the RFQ document. To the extent that any terms and conditions of the Authorized User are inconsistent with the terms and conditions of this Contract, the terms and conditions of this Contract shall supersede.

#### B. Orders

Notwithstanding all Authorized User's rights to license or purchase Supplier's products or services under this Contract, an Authorized User is under no obligation to license or purchase from Supplier any of Supplier's products or services. This Contract is optional use and non-exclusive and all Authorized Users may, at their sole discretion, purchase, license or otherwise receive benefits from third party suppliers of products and services similar to, or in competition with, the products and services provided by Supplier. Supplier is required to allow any orders to be placed by an Authorized User through the eVA electronic procurement website portal (<u>http://www.eva.virginia.gov</u>). eVA is the Commonwealth of Virginia's e-procurement system. State agencies, as defined in §2.2-2006 of the <u>Code of Virginia</u>, shall order through eVA. All other Authorized Users are encouraged to order through eVA, but may order through the following means:

- i). Purchase Order (PO): An official PO form issued by an Authorized User.
- ii). Any other order/payment charge or credit card process, such as AMEX, MASTERCARD, or VISA under contract for use by an Authorized User.

All orders are subject to acceptance by Supplier. This ordering authority is limited to issuing orders for the Products and Services available under this Contract. Under no circumstances shall any Authorized User have the authority to modify this Contract. An order from an Authorized User may contain additional terms and conditions; however, to the extent that the terms and conditions of the Authorized User's order are inconsistent with the terms and conditions of this Contract, the terms of this Contract shall supersede.

Notwithstanding the foregoing, Supplier shall not accept any order from an Authorized User if such order is to be funded, in whole or in part, by federal funds and if, at the time the order is placed, Supplier is not eligible to be the recipient of federal funds as may be noted on any of the Lists of Parties Excluded from Federal Procurement and Nonprocurement Programs.

ALL CONTRACTUAL OBLIGATIONS UNDER THIS CONTRACT IN CONNECTION WITH AN ORDER PLACED BY ANY AUTHORIZED USER ARE THE SOLE OBLIGATION OF SUCH AUTHORIZED USER AND NOT THE RESPONSIBILITY OF VITA UNLESS SUCH AUTHORIZED USER IS VITA.

#### **C.** Purchase Price and Price Protection

<u>Exhibit C</u> sets forth the prices by Product type (including whole units and repairable major components thereof) and for warranty services and Maintenance Services, and the appropriate Commonwealth

discounts. Any fixed price provided in Exhibit C shall not increase, and the discounts specified in Exhibit C shall not decrease, for a period of not less than two (2) years from the Effective Date of this Contract. As consideration of the Products purchased hereunder, the Authorized User shall pay Supplier the Supplier's list price (as posted on Supplier's retail pricelist) less the percentage discount(s) set forth in Exhibit C. The percentage discounts shall be the minimum discounts applicable throughout the term of this contract, including extensions. Supplier reserves the right to change retail prices on its retail price list without notice.

After the initial 2 year period, any increase in fixed price shall be limited to once per twelve (12) month period and shall not exceed the lesser of three percent (3%) or the annual increase in the Consumer Price Index for All Urban Consumers (CPI-U), U.S. City Average, for the expenditure category "Information technology, hardware and services" as published by the Bureau of Labor Statistics of the Department of Labor (http://www.bls.gov/cpi/home.htm), for the effective date of the increase compared with the same index one (1) year prior. Supplier shall demonstrate the added value for any requested price increase. Any change in price shall be submitted in writing in accordance with the above and shall not become effective for sixty (60) days thereafter. Semi-annually, VITA may check the prices for Product against the CPI-U, as defined above, for the expenditure category "Information technology, hardware and services", and the prices in Exhibit C shall be appropriately reduced to ensure continued price competitiveness, if required. This paragraph applies to the fixed prices in Exhibit C only and is not applicable to manufacturer's retail price list.

#### D. Supplier-Sponsored Product Promotions

The Supplier, at its discretion, may sponsor Product and Service promotions during the Contract term or any extensions thereof. Should Supplier choose to sponsor such a promotion, Supplier shall provide in writing to VITA, at least five (5) days prior to the promotion, the following information: (i) the dates of the promotion or the duration of the promotion to include the commencement date and the ending date; (ii) the exact Products or Services covered in the promotion; and (iii) the pricing or percentage discount offered during the promotion. VITA shall communicate to Supplier in writing its agreement to the promotion.

The Supplier shall be in breach of the Contract in the absence of a written agreement regarding the promotion. In any event wherein the Supplier proposes prices that are different than the Contract prices to any Authorized User without first obtaining VITA's agreement, the Supplier shall be in breach of the Contract, and VITA shall have all remedies available under Contract and law and in equity.

All Supplier-sponsored Product or Service promotions shall be available to all Authorized Users. Should the Supplier request a promotion that would be limiting, either through product configuration or quantities of Products and Services, VITA, at its sole discretion, may not provide a written agreement. VITA and Supplier agree that promotions shall not target any one Authorized User, or a few Authorized Users.

VITA and Authorized Users, at their discretion, may assist in advertising the promotion. This assistance may consist of advertising space on Authorized User web sites, or other assistance at an Authorized User's discretion.

#### **E.** Invoice Procedure

Supplier shall remit each invoice to the "bill-to" address provided with the order promptly after all Products or Services have been accepted. No invoice shall include any costs other than those identified in the executed order, which costs shall be in accordance with <u>Exhibit C</u>. Without limiting the foregoing, all shipping costs are the Supplier's responsibility except to the extent such charges are identified in <u>Exhibit C</u>, or as noted in any executed order referencing this Contract. Invoices issued by the Supplier shall identify at a minimum:

- i). Product or Service type and description
- ii). Quantity, charge and extended pricing for each Product and/or Service item

vi). This Contract number and the applicable order number.

Supplier may submit separate Invoices for the Maintenance charges (detailing the Product types and quantities by Authorized User site), for billable additional services, and for any installation services, including the appropriate Product Service Record or other agreed upon written instrument. Additional invoices may be required by Authorized User from time to time detailing charges for Product at affiliate locations by corporate department.

Any terms included on Supplier's invoice shall have no force or effect and will in no way bind VITA or any Authorized User.

#### **F.** Purchase Payment Terms

Supplier is responsible for the accuracy of its billing information. Supplier agrees not to issue invoices hereunder until Product has been shipped. Charges for Product or Services accepted more than ninety (90) days prior to receipt of a valid invoice may not be paid. Should Supplier repeatedly over bill Authorized User, Authorized User may assess a one percent (1%) charge for the amount over billed for each month that such over billing continues.

If there are any disputed items, an Authorized User shall pay all undisputed charges and promptly notify Supplier in writing of any disputed amount. Supplier shall thereupon review its records, and, if it does not concur with the Authorized User, provide the Authorized User with documentation to support the charge. If such charges remain in dispute, such dispute shall be resolved in accordance with the Dispute Resolution section of this Contract. In the absence of the Supplier's written evidence identifying the merit of the disputed amounts, Authorized User may not pay the disputed amounts and may consider the matter concerning the specific identified amounts closed. All payment terms are net 30 days after Acceptance.

#### **G.** Universal Service Fund

Supplier agrees to make available all eligible Products and Services as listed and priced herein to any Authorized User which is a USF participant. Supplier agrees to provide the eligible Products and Services directly to the USF participant, and to bill each USF participant directly. Supplier agrees and understands that the responsibility for collection of all charges incurred, and the responsibility for resolving all Product and Service problems as well as administration of this Contract for USF participation shall be the sole responsibility of the Supplier.

Supplier warrants that it is currently qualified under applicable Federal Communications Commission and Virginia State Corporation Commission rules to apply for and receive USF allocations/disbursements for products and services provided pursuant to this Contract to Authorized Users which are eligible for those allocations/disbursements on behalf, and for the benefit, of those Authorized Users. Supplier also agrees to make every effort maintain those qualifications and to assist Authorized Users in applying for and receiving these allocations/disbursements.

E-Rate eligibility depends upon who uses the equipment, how it is used and where it is located. In general terms, equipment located on school property and that is necessary for e-mail and Internet access in classrooms is eligible for E-Rate support. The Supplier shall make every effort to continue its involvement in this program and to add products as applicable.

A meeting of the Steering Committee is intended to be a forum for brainstorming and sharing ideas, emphasizing respect, cooperation, and access, with the end goal of developing relationships to avoid conflict. A facilitator may, but is not required to, conduct a meeting of the Steering Committee.

A Steering Committee for this Contract will be formed at VITA's option. Meetings may be held at any time during the Contract term, should VITA, at its sole discretion, determine that a meeting(s) would be beneficial to the contractual relationship, and Supplier agrees to participate in such meeting(s). In addition, Supplier may at any time submit a written request to VITA for a meeting of the Steering Committee, which VITA will not unreasonably deny.

Supplier shall ensure the availability of the appropriate personnel to meet with the VITA contract management team. Additional Steering Committee meetings involving representatives from VITA, the Supplier, and an Authorized User may be required prior to or during performance on any specific order issued pursuant to this Contract.

#### 14. INDEMNIFICATION AND LIABILITY

#### A. Indemnification

Supplier agrees to indemnify, defend and hold harmless the Commonwealth, VITA, any Authorized User, their officers, directors, agents and employees (collectively, "Commonwealth's Indemnified Parties") from and against any and all third party claims, demands, proceedings, suits and actions, including any related liabilities, obligations, losses, damages, assessments, fines (whether criminal or civil), judgments, settlements, expenses (including reasonable attorneys' and accountants' fees and disbursements) and reasonable costs (each, a "Claim" and collectively, "Claims"), incurred by, borne by or asserted against any of Commonwealth's Indemnified Parties to the extent such Claims in any way relate to, arise out of or result from: :

(i) any intentional or willful misconduct or negligence of any employee, agent, or subcontractor of Supplier working within the scope of or coincident with their employment on customer's premises and for a specific customer engagement or service and resulting in personal injury (including death) or damage to real property or tangible personal property;

(ii) any defect in a Dell-branded Product resulting in personal injury (including death) or damage to real property or tangible personal property; or

(iii) any actual or alleged infringement or misappropriation of any third party's intellectual property rights by any of the Dell-branded Product or Dell Services;

Selection and approval of counsel and approval of any settlement shall be accomplished in accordance with all applicable laws, rules and regulations. For state agencies the applicable laws include §§ 2.2-510 and 2.2-514 of the <u>Code of Virginia</u>. In all cases the selection and approval of counsel and approval of any settlement shall be reasonably satisfactory to the Commonwealth. To the extent permitted by law, the Commonwealth, VITA, and any Authorized User shall be responsible for their own acts or omissions.

In the event that a Claim is commenced against any of Commonwealth's Indemnified Parties alleging that use of the a Dell branded Product or any Product component or that the provision of Services under this Contract infringes any third party's intellectual property rights and Supplier is of the opinion that the allegations in such Claim in whole or in part are not covered by this indemnification provision, Supplier shall immediately notify VITA and the affected Authorized User(s) in writing, via certified mail, specifying to what extent Supplier believes it is obligated to defend and indemnify under the terms and conditions of this Contract. Supplier shall in such event protect the interests of the Commonwealth's Indemnified Parties and secure a continuance to permit VITA and the affected Authorized User(s) to appear and defend their interests in cooperation with Supplier as is appropriate, including any jurisdictional defenses VITA or the affected Authorized User(s) may have.

In the event of a Claim pursuant to any actual or alleged infringement or misappropriation of any third party's intellectual property rights by any of the Dell branded Product or Services, and in addition to all other obligations of Supplier in this Section, Supplier shall at its expense, either (a) procure for all Authorized Users the right to continue use of such infringing Product or Services, or any component thereof; or (b) replace or modify such infringing Product or Services, or any component thereof, with non-infringing Products or Services reasonably satisfactory to VITA; or , (d) accept the return of the infringing component of the Dell Product or Services, along with any other related Dell branded components of any Dell Products, provided such components were purchased under this Contract and rendered unusable by any Authorized User as a result of the infringing component, and provide a reasonably depreciated or pro rata refund of the price paid to Supplier for such Dell Product, Service or related components.

Notwithstanding the foregoing, Supplier shall have no obligation under this Section for any claim resulting or arising from (1) modifications of the Products, Software, or Services that were not performed by or on

behalf of Dell; (2) the combination, operation, or use of the Products, Software, or Services in connection with a third-party product, software or service (the combination of which causes the claimed infringement); or (3) Supplier's compliance with VITA or Authorized User's written specifications or directions, including the incorporation of any software or other materials or processes provided by or requested by VITA or Authorized User.

Supplier's duty to indemnify and defend under this Section is contingent upon: (i) Supplier receiving prompt written notice of the third-party claim or action for which Supplier must indemnify VITA or Authorized User, (ii) Supplier having the right to control the defense and resolution of such claim or action, and (iii) VITA or Authorized User's cooperation with Supplier in defending and resolving such claim or action.

This Section states VITA and/or Authorized User's exclusive remedies for any third-party intellectual property claim or action, and nothing in this Contract or elsewhere will obligate Supplier to provide any greater indemnity to VITA or Authorized User.

With respect to any claim that a non-supplier product infringes upon another person's or entity's patent, copyright, trade secret or other intellectual property right in the United States. Supplier agrees to pass through to the appropriate Authorized User any rights to indemnification protection for which Supplier currently or subsequently has an agreement in place with the potentially infringing equipment manufacturer/entity to the extent allowed by such agreement.

#### **B.** Liability

To the extent allowed by applicable law and except for liability with respect to Supplier's indemnification obligations, Supplier's liability shall be limited to 12 months' trailing contract revenue for the specific Products and Services provided under this Contract and giving rise to the liability.

#### FOR ALL OTHER CONTRACTUAL CLAIMS, IN NO EVENT WILL ANY PARTY BE LIABLE TO ANY OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, INCLUDING (WITHOUT LIMITATION) LOSS OR CORRUPTION OF DATA OR SOFTWARE OR LOSS OF PROFIT, INCOME OR SAVINGS, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

#### **15. SECURITY COMPLIANCE**

Supplier agrees to comply with all applicable provisions of the then-current Commonwealth of Virginia security procedures, published by the Virginia Information Technologies Agency (VITA) and which may be found at (<u>http://www.vita.virginia.gov/library/default.aspx?id=537#securityPSGs</u>) or a successor URL(s), as are pertinent to Supplier's operation. Supplier further agrees to comply with all provisions of the relevant Authorized User's then-current security procedures as are pertinent to Supplier's performance of Services under this Contract and which have been supplied to Supplier by such Authorized User. Supplier shall also comply with all applicable federal, state and local laws and regulations. For any individual Authorized User location, security procedures may include but not be limited to: background checks, records verification, photographing, and fingerprinting of Supplier's employees or agents. Supplier may, at any time, be required to execute and complete, for each individual Supplier employee or agent, additional forms which may include non-disclosure agreements to be signed by Supplier's employees or agents acknowledging that all Authorized User information with which such employees and agents come into contact while at the Authorized User site is confidential and proprietary. Any unauthorized release of proprietary or Personal information by the Supplier or an employee or agent of Supplier shall constitute a breach of its obligations under this Section and the Contract.

Dell does not require access to and will not create, maintain or store Personal Information during the performance of Services under the scope of this contract. Any access to Personal Information during the performance of Services will be incidental to the Services provided. VITA and Authorized Users are solely responsible for encrypting or redacting Personal Information which Supplier may have access to during the course of performance of Services hereunder. BANKRUPTCY

If Supplier becomes insolvent, takes any step leading to its cessation as a going concern, or ceases business operations for any reason and other than assignment as allowed by this Contract, then VITA

may immediately terminate this Contract, and an Authorized User may terminate an order, on notice to Supplier unless Supplier immediately gives VITA or such Authorized User adequate assurance of the future performance of this Contract or the applicable order. If bankruptcy proceedings are commenced with respect to Supplier, and if this Contract has not otherwise terminated, then VITA may suspend all further performance of this Contract until Supplier assumes or rejects this Contract pursuant to Section 365 of the Bankruptcy Code or any similar or successor provision, it being agreed by VITA and Supplier that this is an executory contract. Any such suspension of further performance by VITA pending Supplier's assumption or rejection shall not be a breach of this Contract, and shall not affect the right of VITA or any Authorized User to pursue or enforce any of its rights under this Contract or otherwise.

#### **16. GENERAL PROVISIONS**

A. Relationship Between VITA and Authorized User and Supplier

For all categories not counting Category 5 – Peripherals, Dell is proposing our own branded manufacturer products including Dell Service, Warranty and Support. For Category 5 – Peripherals and similar to other resellers, Dell will defer service and support to the manufacturer of that product. For additional information related to Dell's fully Warranty and Support policies, please also refer to "Examples & Supporting Information" in Dell's response.

While Dell has proposed differentiated products and platforms with unique features that set us apart from our competitors, Dell's proposed solution also includes hardware configurations that are considered industry standard with open-based technologies leveraging partnerships with Intel, Microsoft and other standard technology companies applicable to this response. For additional information, please also refer to "Examples & Supporting Information" in Dell's response.

# Does your proposed solution include the ability for the end user to track their shipment once it has left your warehouse? If so, please describe and provide screen shots.

Does your firm ship all in stock orders same day? Please list shipping timelines and include caveats for delay, etc.

Does your proposed solution allow the user to keep a failed hard drive while receiving a new hard drive that is covered under warranty? Please provide details and pricing if necessary.

For those Suppliers proposing Used/Refurbished devices, VITA has required a three year warranty on both PC's and Laptops. Please describe your solution when an Authorized User initiates a request for repair request including but not limited to shipping time, repair time at your facility, etc. For those not responding to the Used/Refurbished section, please place N/A in column B.

Does your firm offer any other goods or services that would be a value to the Commonwealth? If so, please explain.

Dell's proposed solution included the ability for the end user to track all aspects of an order's life-cycle, including purchase, fulfillment, and delivery status. This is primarily done through the Premier.Dell web portal that was detailed in the General Tab of Dell's Examples and Support Information. For additional information, please also refer to "Examples & Supporting Information" in Dell's response.

For certain products and configurations, Dell offers our Ships-Fast program which ships in-stock orders within 24 hours. Please refer to Dell's Ships-Fast as well as other Delivery information located in Examples & Supporting Information" in Dell's response.

While this is not a Dell standard offer, Dell can offer VITA customers our "Keep-Your-Hard-Drive" Service as optional offer. For additional information, please also refer to "Examples & Supporting Information" in Dell's response.

### Limited Hardware Warranties

Dell-branded hardware products purchased in the U.S. or Canada may come with a 90-day, 1-year, 2year, 3-year, 4-year, 5-year or other limited hardware warranty. Dell may offer different delivery methods for warranty service, including but not limited to parts and product dispatches, mail-in service and in-home service. Renewals and extensions of your limited hardware warranty may also be available after you purchase your product(s). To determine the warranty that came with your hardware product(s), or the warranty renewal or extension that you purchased, see your packing slip, invoice, receipt or other sales documentation. Some components of the hardware you purchased may have a shorter warranty than that listed on your packing slip, invoice, receipt or other sales documentation. #### How long does this limited hardware warranty last?

This limited hardware warranty lasts for the time period indicated on your packing slip, invoice or receipt except for the following Dell-branded hardware:

- All variants of ioDrive NAND Flash devices carry the length of the limited hardware warranty coverage for the Dell system with which the ioDrive NAND Flash device is shipped. ioDrive NAND Flash devices are not eligible for purchase of extended warranty coverage beyond a total of 5 years of coverage from the original shipment date. Additionally, NAND Flash devices use a silicon technology which has a maximum number of physical bytes which can be written to the device (the "Rated Life"). The applicable limited hardware warranty covers failures due to defects in workmanship and/or materials, but does not cover problems related to the device reaching its maximum Rated Life. ioDrive is a registered trademark of Fusion-io.
- As part of standard portable configuration, batteries carry a base 1-year limited hardware warranty regardless of the length of the system warranty. In addition, for some products, a

customer has the option of purchasing a battery that comes with a 3-year limited hardware warranty.

- The warranty for a print head that is included as original equipment in the Dell mobile printer is for parts only and is effective for a period of 1 year after the date of purchase of the printer or 1000 prints of printer usage, whichever occurs first.
- Your Series 5, 6 or 7 PERC controller battery may provide up to 72 hours of controller cache memory backup power when new. Under the 1-year limited hardware warranty, we warrant that the battery will provide at least 24 hours of backup coverage during the 1-year limited hardware warranty period.
- Your Series 8 PERC controller battery comes with a 3-year limited hardware warranty, which cannot be extended beyond 3 years.
- Projector lamps carry a 90-day limited hardware warranty.
- Dell-certified and Dell-branded memory purchased separately from a Dell system ("Dell-Certified Memory") carries a lifetime limited hardware warranty.
- The limited hardware warranty for monitors purchased independent of a system lasts for the time period indicated on your packing slip, invoice, receipt or other sales documentation. Monitors purchased with a system are covered by the system limited hardware warranty.
- The limited hardware warranty for a Dell external hard disk drive purchased simultaneously with a system lasts for the longer of (a) 2 years; or (b) the duration of the system's limited hardware warranty.
- PDAs, earphones, and remote inline controls carry a 1-year limited hardware warranty.
- Other add-on hardware carries the longer of either a 1-year limited hardware warranty for new parts and a 90-day limited hardware warranty for reconditioned parts or, for both new and reconditioned parts, the remainder of the warranty for the Dell product on which such parts are installed.
- SATA hard drives in PowerEdge, PowerEdge SC and PowerVault systems launched on or after March 24, 2009 (e.g. PowerEdge T110, PowerEdge T310, PowerEdge T410, PowerEdge T610, PowerEdge T710, PowerEdge R210, PowerEdge R310, PowerEdge R410, PowerEdge R510, PowerEdge R610, PowerEdge R710, PowerEdge M610, PowerEdge M710 and PowerVault NX300) carry the lesser of either a 1-year limited hardware warranty or the length of the limited hardware warranty for the Dell system with which the SATA hard drive is shipped. Service offerings may be available to extend the SATA hard drive warranty period on these systems for an additional fee.
- Select PowerConnect products carry a lifetime limited hardware warranty with Basic Hardware Service (repair or replacement) for as long as you own the product. The PowerConnect products covered by the lifetime limited hardware warranty are: the PowerConnect 2800 series, the PowerConnect 3500 series, the PowerConnect 5500 series, the PowerConnect 6200 series, the PowerConnect 7000 series and the PowerConnect 8000 series. See www.dell.com/LifetimeWarranty for more details.
- Select PowerConnect products carry an Extended Life Limited Hardware Warranty with Basic Hardware Service, which extends until 5 years after end of product model sales, subject to the specific clarifications and limitations listed below. The Extended Life Limited Hardware Warranty does not include configuration or other advanced service provided by Dell ProSupport. The Extended Life Limited Hardware Warranty is not transferrable.

Clarifications and limitations pertaining to products with Extended Life Limited Hardware Warranty

- B-Series FCX / FCXs Internal power supply and fans are covered; however, warranty excludes removable optics and LEDs.
- J-Series EX4200 Warranty does not include optics and limits fan and power supply to 5 years from date of purchase.

- W-Series Access Points: W-AP92/93/93H, W-IAP92/93, W-AP104/105, W-IAP105, W-AP124/125, W-AP134/135, W-IAP134/135 Warranty limits any power supply, antennae or accessories to 1 year from date of purchase.
- Enterprise Value, Read Intensive and Slim SSD Class Drives are not eligible for purchase of extended warranty coverage beyond 3 years.
- Dell power distribution units (PDUs), KMMs and UPSs purchased independent of a system carry a 3-year limited hardware warranty. Dell PDUs, KMMs, and UPSs purchased with a system are covered by the greater of 3 years or the term of the system limited hardware warranty, with the exception of the UPS battery limited hardware warranty, which is limited to 3 years.
- All variants of PowerEdge Express Flash PCIe SSD SLC devices carry the length of the limited hardware warranty coverage for the Dell system with which the PowerEdge Express Flash PCIe SSD SLC device is shipped. PowerEdge Express Flash PCIe SSD SLC devices are not eligible for purchase of extended warranty coverage beyond a total of 5 years of coverage from the original shipment date. Additionally, PowerEdge Express Flash PCIe SSD devices use a silicon technology that has a maximum number of physical bytes that can be written to the device (the "Device Life"). The applicable limited hardware warranty covers failures due to defects in workmanship and/or materials, but does not cover problems related to the device reaching its maximum Device Life.

The limited hardware warranty on all Dell-branded products purchased directly from Dell begins on the date of the packing slip, invoice, receipt or other sales documentation. For products purchased from third party retailers or resellers, the limited hardware warranty begins on the date of your original sales receipt. The warranty period is not extended if we repair or replace a warranted product or any parts. Dell may change the availability of limited hardware warranties, at its discretion, but any changes will not be retroactive.

# What will Dell do?

Prior to contacting Dell, please consult your Owner's Manual or <u>http://support.dell.com</u> for troubleshooting advice and directions on running hardware diagnostics.

Upon contacting Dell technical support, you will be required to engage in a remote diagnosis session with the tech support agent to help determine the cause of your issue. Remote diagnosis may involve customer access to the inside of the product and multiple or extended sessions. If the Dell technical support agent determines that your issue is the result of a defect in materials or workmanship but the issue is not able to be resolved remotely, Dell, at its sole discretion, may dispatch a replacement part to you, arrange for you to send your product or defective part back to Dell's repair depot or replace the part or product with a comparable part or product that may be new or refurbished. If the Dell limited hardware warranty for your product includes in-home warranty service, then Dell may also elect to dispatch a service technician to your location to perform the repair or replacement (see Important Information about In-Home Warranty Service After Remote Diagnosis below).

If we determine that the problem is not covered under this limited hardware warranty, we may be able to offer you service alternatives on a fee basis.

We use new and refurbished parts made by various manufacturers in performing warranty repairs and in building replacement parts and products. Refurbished parts and products are parts or products that have been returned to Dell, some of which were never used by a customer. All parts and products are inspected and tested for quality. Replacement parts and products are covered for the remaining period of the limited hardware warranty for the product you purchased. Dell owns all parts removed from repaired products and, in most instances, you will be required to return defective parts to Dell.

Dell may use authorized representatives to provide any of the technical support or repair services under this limited hardware warranty.

### Important Information about Returning Products to Dell for Repair or Replacement:

For mail-in warranty service (shipping included): Upon a determination by a Dell technical support agent that your product should be returned to Dell for repair or replacement, packaging, shipping instructions and a pre-paid shipping waybill will be sent to you. Upon receipt of the shipping supplies, you must package the product in the material required and call the carrier designated on your shipping instructions to arrange a pickup time. As long as you follow our shipping instructions, we will pay standard shipping charges for shipping the product in for repair and for shipping it back to you if you use an address in the United States (excluding Puerto Rico and U.S. possessions and territories) or in Canada (in respect of systems registered in Canada). Otherwise, we will ship the product to you freight collect.

If your warranty does not include mail-in warranty service (shipping included), then we will issue a Return Material Authorization Number that you must include with your return. You must return the products to us in their original or equivalent packaging, prepay shipping charges and insure the shipment or accept the risk if the product is lost or damaged in shipment. We will return the repaired or replacement products to you. We will pay to ship the repaired or replaced products to you if you use an address in the United States (excluding Puerto Rico and U.S. possessions and territories) or in Canada (in respect of systems registered in Canada). Otherwise, we will ship the product to you freight collect.

When you contact us regarding certain products, such as smartphones or tablet products, we may offer to ship you a replacement product prior to receiving your original product back. In such instance, we may require a valid credit card number at the time you request a replacement product. We will not charge or invoice you for the replacement product as long as you return the original product to us within 10 days of your receipt of the replacement product and we confirm that your product issue is covered under this limited hardware warranty. If we do not receive your original product within 10 days, we will charge your credit card or invoice you for the then-current standard price for the product. If upon receipt of your original product, we determine that your product issue is not covered under this limited hardware warranty, you will be given the opportunity to return the replacement unit, at your sole expense, within 10 days from the date we contact you regarding the lack of coverage for your issue or we will charge to your credit card or invoice you the then-current standard price for the product. In addition, if you fail to pay Dell the amounts due in connection with such an invoice, Dell may suspend your limited hardware warranty support until the invoice amount is paid. A

suspension of your limited hardware warranty for failure to properly return a product or to pay an invoice will not toll the term of your limited hardware warranty and the limited hardware warranty will still expire in accordance with its original term.

NOTE: Before you ship the product(s) to us, make sure to back up the data on the hard drive(s) and any other storage device(s) in the product(s). You are responsible for removing any confidential, proprietary or personal information and removable media such as SIM cards, floppy disks, DVDs/CDs, or PC Cards regardless of whether a technician is also providing in-home or on-site assistance. We are not responsible for any of your confidential, proprietary or personal information; lost or corrupted data; data or voice charges incurred as a result of failing to remove all SIM cards; or damaged or lost removable media. Please, only include the product components requested by the phone technician.

### Important Information about Part Dispatches by Dell:

For some issues, Dell may dispatch a new or refurbished part for you to replace a defective part, if we agree that the defective part needs to be replaced. You must return the defective part to Dell. When you contact us, we may offer to ship you a replacement part prior to receiving your original part back. In such instance, we may require a valid credit card number at the time you request a replacement part. We will not charge or invoice you for the replacement part as long as you return the original part to us within 10 days of your receipt of the replacement part. Failure to timely return the defective part to Dell in accordance with the written instructions provided with the replacement part may result in the suspension of your limited hardware warranty support or a charge to your credit card or invoice in the amount of the then-current standard Dell price for that part. A suspension of your limited hardware warranty and the limited hardware warranty will still expire in accordance with its original term.

We will pay to ship the part to you if you use an address in the United States (excluding Puerto Rico and U.S. possessions and territories) or in Canada (in respect of systems registered in Canada). Otherwise, we will ship the part freight collect. We will also include a prepaid shipping container with each replacement part for your use in returning the replaced part to us.

NOTE: Before you replace parts, make sure to back up the data on the hard drive(s) and any other storage device(s) in the product(s). You are responsible for removing any confidential, proprietary or personal information and removable media such as SIM cards, floppy disks, DVDs/CDs, or PC Cards regardless of whether a technician is also providing in-home or on-site assistance. We are not responsible for any of your confidential, proprietary or personal information; lost or corrupted data; data or voice charges incurred as a result of failing to remove all SIM cards; or damaged or lost removable media. When returning parts to Dell, please only include the product components requested by the phone technician.

# Important Information about In-Home Warranty Service after Remote Diagnosis:

If the Dell limited hardware warranty for your product includes in-home warranty service, then if Dell determines that your issue is covered under this limited hardware warranty and the technician cannot correct your problem over the phone or, if applicable, by dispatching a part or replacement product to you, then Dell may dispatch a service technician to your location within the United States (including Puerto Rico, but excluding the other U.S. possessions and territories) or in Canada (in respect of systems registered in Canada). Please tell the technician the full address of your system's location. Both the performance of service and service response times depend upon the time of day your call is received by Dell, the service alternative you purchased, parts availability, geographical restrictions, weather conditions and the terms of this limited hardware warranty. An adult must be present at all times during the service technician's visit. You must grant the service technician full access to the system and (at no cost to Dell) have working space, electricity and a local telephone line. If these requirements are lacking, Dell is not obligated to provide service. In addition, Dell is not obligated to provide service to computer repair, including for example, if you insist on service to be provided at varying locations, if you fail to properly restrain a pet, if you threaten our technician either verbally or physically, or if your location or the general area

where the system is located is dangerous, infested with insects, rodents, pests, biohazards, human or animal excrement and/or chemicals as reasonably determined to be unsafe by our technician. If you or your authorized representative is not at the location when the service technician arrives, the service technician will not be able to service your system and you may be charged an additional amount for a follow-up service call.

If the telephone technician determines that your system needs a replacement part, you authorize the on-site technician to act as your service agent to handle the delivery and return of the warranty parts necessary to render on-site repairs. You may incur a charge if you fail to allow the on-site technician to return non-working/unused units/warranty parts to Dell.

### What if I purchased a service contract?

If your service contract is with Dell, service will be provided to you under the terms of the service agreement. Please refer to that contract for details on how to obtain service.

If you purchased through us, a service contract with a third-party service provider, please refer to that contract for details on how to obtain service.

See www.dell.com/servicecontracts for more details.

These terms and conditions constitute the complete and exclusive warranty agreement between you and the Company regarding the Product you have purchased. These terms and conditions supersede any prior agreements or representations, including representations made in Company sales literature or advice given to you by the Company or an agent or employee of the Company that may have been made in conjunction with your purchase of the Product. (This section should reflect the mutually agreed upon UAT and Acceptance Criteria specific to this engagement. Please read the VITA contract definitions for the definitions or Requirements and Acceptance. Ensure the language in this section does not conflict with the VITA Contract language.)

Acceptance Criteria for this Solution will be based on a User Acceptance Test (UAT) designed by Supplier and accepted by the Authorized User. The UAT will ensure that all of the requirements and functionality required for the Solution have been successfully delivered. Supplier will provide the Authorized User with a detailed test plan and acceptance check list based on the mutually agreed upon UAT Plan. This UAT Plan check-list is incorporated into this SOW in Exhibit B-X.

Each deliverable created under this Statement of Work will be delivered to the Authorized User with a Deliverable Acceptance Receipt. This receipt will describe the deliverable and provide the Authorized User's Project Manager with space to indicate if the deliverable is accepted, rejected, or conditionally accepted. Conditionally Accepted deliverables will contain a list of deficiencies that need to be corrected in order for the deliverable to be accepted by the Project Manager. The Project Manager will have ten (10) days from receipt of the deliverable to provide Supplier with the signed Acceptance Receipt unless an alternative schedule is mutually agreed to between Supplier and the Authorized User in advance.

#### 13. PROJECT ASSUMPTIONS AND PROJECT ROLES AND RESPONSIBILITIES

(This section contains areas to address project assumptions by both the Supplier and the Authorized User and to assign project-specific roles and responsibilities between the parties. Make sure that all assumptions are included to alleviate surprises during the project. Ensure that all primary and secondary (as needed) roles and responsibilities are included. You will tailor the Responsibility Matrix table below to fit your project's needs.)

#### A. Project Assumptions

The following assumptions are specific to this project:

### 14. COMMONWEALTH AND SUPPLIER-FURNISHED MATERIALS, EQUIPMENT, FACILITIES AND PROPERTY

(In this section, provide details of any materials, equipment, facilities and property to be provided by your Agency or the Supplier in performance of this project. If none, so state so that the requirements are clear. If delivery of any of these is critical to the schedule, you may want to identify such delivery with hard due dates tied to "business days after project start' or "days after event/milestone." Be sure to specify the delivery and point of contact information.)

#### A. PROVIDED BY THE COMMONWEALTH

#### **B. PROVIDED BY THE SUPPLIER**

#### **15. SECURITY REQUIREMENTS**

#### (Provide (or reference as an Attachment) Authorized User's security requirements.)

For any individual Authorized User location, security procedures may include but not be limited to: background checks, records verification, photographing, and fingerprinting of Supplier's employees or agents. Supplier may, at any time, be required to execute and complete, for each individual Supplier employee or agent, additional forms which may include non-disclosure agreements to be signed by Supplier's employees or agents acknowledging that all Authorized User information with which such employees and agents come into contact while at the Authorized User site is confidential and proprietary. Any unauthorized release of proprietary information by the Supplier or an employee or agent of Supplier shall constitute a breach of the Contract.

Supplier shall comply with all requirements in the Security Compliance section of the Contract

#### 16. REQUIRED STANDARDS, CERTIFICATIONS AND SPECIFICATIONS

In addition to any standards and specifications included in the Contract, Supplier shall follow the standards and specifications listed below during performance of this effort.

(List any specific Commonwealth, VITA, Federal, engineering, trade/industry or professional standards, certifications and specifications that Supplier is required to follow or possess in performing this work. The first bullet includes a link to COVA-required standards for all Commonwealth technology projects. The rest are examples only and highlighted to reflect this. If you need an exception of any COVA-required standard, please follow the process located at this link: <u>http://www.vita.virginia.gov/oversight/default.aspx?id=10344</u> and select the Data Standards Guidance bulleted link. Your AITR can assist you.

#### 17. U.S. ENVIRONMENTAL PROTECTION AGENCY'S AND DEPARTMENT OF ENERGY'S ENERGY STAR GUIDELINESRISK MANAGEMENT

(Risk is a function of the probability of an event occurring and the impact of the negative effects if it does occur. Negative effects include schedule delay, increased costs, failure of dependent legacy system interoperability, other project dependencies that don't align with this project's schedule, and poor quality of deliverables. Depending on the level of risk of this project, as assessed by your Project

Manager and/or Steering Committee, this section may contain any or all of the following components, at a level of detail commensurate with the level of risk. Remember to add them to the Deliverables table.)

#### C. Initial Risk Assessment

Authorized User and Supplier shall each provide an initial assessment from their point of view.

#### D. Risk Management Strategy

(The list below is taken from VITA PMD template discussing what should go into a Risk Management Strategy. Don't forget to consider and plan for any budget contingencies to accommodate potential risks that are identified.)

- 1. Risk Identification Process: The processes for risk identification.
- 2. Risk Evaluation and Prioritization: How risks are evaluated and prioritized.
- **3. Risk Mitigation Options**: Describe the risk mitigation options. They must be realistic and available to the project team.
- Risk Plan Maintenance: Describe how the risk plan is maintained during the project lifecycle.
- 5. Risk Management Responsibilities: Identify all project team members with specific risk management responsibilities. (e.g., an individual responsible for updating the plan or an individual assigned as a manager).

#### E. Risk Management Plan

(Include a description of frequency and form of reviews, project team responsibilities, steering and oversight committee responsibilities and documentation. Be sure to add all deliverables associated with risk strategizing and planning to the list of Deliverables.)

#### **18. DISASTER RECOVERY**

Planning for disaster recovery for your project is paramount to ensure continuity of service. The criticalness and complexity of your project, including its workflow into other dependent systems of the Commonwealth or federal systems, will help you determine if you require a simple contingency plan or a full-blow contingency plan that follows the Commonwealth's ITRM Guideline SEC508-00 found at this link:

http://www.vita.virginia.gov/uploadedFiles/Library/ContingencyPlanningGuideline04\_18\_2007.pdf

It is advisable that you visit the link before making your decision on how you need to address contingency planning and related deliverables in this SOW; as well as, how this will impact your planned budget. A likely deliverable for this section would be a Continuity of Operations Plan. You may choose to include the above link in your final SOW to describe what the Plan will entail. The same link includes the following processes, which you may choose to list in your final requirements for this section, to be performed by your team, the Supplier or both and/or a steering committee if your project warrants such oversight and approval:

- Development of the IT components of the Continuity of Operations Plan (COOP)
- Development and exercise of the IT Disaster Recovery Plan (IT DRP) within the COOP
- Development and exercise of the IT System Backup and Restoration Plan

#### **19. PERFORMANCE BOND**

(If your project is sizeable, complex and/or critical, and the VITA Contract does not already provide for a performance bond, you may want the Supplier to provide one. The VITA Contract may include an Errors and Omissions insurance requirement, which would cover the Supplier's liability for any breach of the Contract or this SOW. Be sure to read the Contract for this information. However, if you feel that this project warrants further performance incentive due to the project or the Supplier's viability, you may include the following language in this section.) The Supplier shall post performance bond in an amount equal to one hundred percent (100%) of the total contract value and provide a copy of the bond to Authorized user within (10) days of execution of this SOW Agreement. In the event that the Supplier or any subcontractor or any officer, director, employee or agent of the Supplier or any subcontractor or any parent or subsidiary corporation of the Supplier or any subcontractor or any parent or subsidiary corporation of the Supplier or any subcontractor fails to fully and faithfully perform each material requirement of this SOW Agreement, including without limitation the Supplier's obligation to indemnify the Authorized User, the performance bond shall be forfeited to Authorized User. The bond shall be in a form customarily used in the technology industry and shall be written by a surety authorized to do business in Virginia and that is acceptable to Authorized User.

#### 20. OTHER TECHNICAL/FUNCTIONAL REQUIREMENTS

(Provide any other unique project technical and functional requirements and expectations in sufficient detail in this section. Ensure they do not conflict with existing requirements in the VITA Contract. Several examples are listed.)

#### A. Service Level Requirements

- B. Mean-Time-Between-Failure Requirements
- C. Data Access/Retrieval Requirements

#### D. Additional Warranties

#### 21. REPORTING

(The following are examples of reporting requirements which may be included in your SOW depending on the project's need for governance. In an effort to help VITA monitor Supplier performance, it is strongly recommended that the SOW include "Supplier Performance Assessments". These assessments may be performed at the Project Manager's discretion and are not mandated by VITA.)

#### A. Weekly/Bi-weekly Status Update.

The weekly/bi-weekly status report, to be submitted by Supplier to the Authorized User, should include: accomplishments to date as compared to the project plan; any changes in tasks, resources or schedule with new target dates, if necessary; all open issues or questions regarding the project; action plan for addressing open issues or questions and potential impacts on the project; risk management reporting.

#### B. Supplier Performance Self-Assessment.

Within thirty (30) days of execution of the project start, the Supplier and the Authorized User will agree on Supplier performance self-assessment criteria. Supplier shall prepare a monthly self-assessment to report on such criteria. Supplier shall submit its self-assessment to the Authorized User who will have five (5) days to respond to Supplier with any comments. If the Authorized User agrees with Supplier's self-assessment, such Authorized User will sign the self-assessment and submit a copy to the VITA Supplier Relationship Manager.

#### C. Performance Auditing

(If you have included service level requirements in the above section entitled, Other Technical/Functional Requirements, you will want to include a requirement here for your ability to audit the results of the Supplier's fulfillment of all requirements, Likewise, you may want to include your validation audit of the Supplier's performance reporting under this Reporting section. It is important, however, that you read the VITA contract prior to developing this section's content so that conflicts are avoided. Suggested language is provided below, but must be customized for your project.)

Authorized User (or name of IV&V contractor, if there is one), will audit the results of Supplier's service level obligations and performance requirements on a monthly/quarterly basis, within ten (10) days of receipt of Supplier's self-assessments and service report(s). Any discrepancies will be discussed between the Authorized User and Supplier and any necessary invoice/payment adjustments will be made. If agreement cannot be reached, the Authorized User and Supplier will

escalate the matter in accordance with the Escalation provision of the Contract. (If none, you may add your escalation procedure in this section.)

#### D. Supplier Performance Assessments

(You may want to develop assessments of the Supplier's performance and disseminate such assessments to other Authorized Users of the VITA Contract. Prior to dissemination of such assessments, Supplier will have an opportunity to respond to the assessments, and independent verification of the assessment may be utilized in the case of disagreement.)

#### 22. CHANGE MANAGEMENT

(Changes to the baseline SOW must be documented for proper project oversight. Depending on your project, you may need to manage and capture changes to configuration, incidents, deliverables, schedule, price or other factors your team designates as critical. Any price changes must be done in compliance with the <u>Code of Virginia</u>, § 2.2-4309. Modification of the contract, found at this link: http://leg1.state.va.us/cgi-bin/legp504.exe?000+coh+2.2-4309+500825. Changes to the scope of this SOW must stay within the boundaries of the scope of the VITA Contract.

For complex and/or major projects, it is recommended that you use the VITA PMD processes and templates located at: http://www.vita.virginia.gov/oversight/projects/default.aspx?id=567. Administrative or non-technical/functional changes (deliverables, schedule, point of contact, reporting, etc.) should extrapolate the affected sections of this SOW in a "from/to" format and be placed in a numbered modification letter referencing this SOW and date, with a new effective date. The VITA Contract may include a template for your use or you may obtain one from the VITA Contract's Point of Contact. It is very important that changes do not conflict with, but do comply with, the VITA Contract, which takes precedence. The following language may be included in this section, but additional language is needed to list any technical/functional change management areas specific to this SOW; i.e., configuration, incident, work flow, or any others of a technical/functional nature.)

All changes to this SOW must comply with the Contract. Price changes must comply with the <u>Code of</u> <u>Virginia</u>, § 2.2-4309. Modification of the contract, found at this link: <u>http://leg1.state.va.us/cgi-bin/legp504.exe?000+coh+2.2-4309+500825</u>

All changes to this SOW shall be in written form and fully executed between the Authorized User's and the Supplier's authorized representatives. For administrative changes, the parties agree to use the change template, attached to this SOW. For technical/functional change management requirements, listed below, the parties agree to follow the processes and use the templates provided at this link: <a href="http://www.vita.virginia.gov/oversight/projects/default.aspx?id=567">http://www.vita.virginia.gov/oversight/projects/default.aspx?id=567</a>
