

Tom Blaser, Director of Business Development

Tom has nearly four decades of experience in transportation project delivery. Prior to his association with RDA, he served as the Director of Transportation for Prince William County, Virginia. In that role, he was responsible for the planning and delivery of the County's infrastructure program using a variety of revenue sources. While collaborating with elected leaders and their constituents, he identified appropriate funding sources for each project utilizing local bond proceeds, state secondary and primary funds, and a variety of federal grant programs administered through agencies including the Metropolitan Washington Council of Governments.

Chris Eib, Staff Attorney

Chris, a licensed attorney with the Virginia State Bar, has 36 years of experience working in the Office of the Attorney General, having represented VDOT throughout his entire career on matters of eminent domain, right of way, inverse condemnation, FOIA, and real estate. His representation included appearances on behalf of VDOT in many of the local circuit courts of the Commonwealth, Supreme Court of Virginia, US District Court for the Eastern and Western Districts of Virginia, and US Court of Appeals for the Fourth Circuit.

Robert Terry, Utility Coordinator

Robert, a 40-year veteran with Dominion Energy, was considered by the Utility sector in Northern Virginia as the "go-to" contact for all matters related to design or field issues regarding Dominion lines or poles during his tenure with the company. He is highly experienced in VDOT plan reading and possesses a wealth of knowledge of Dominion Energy procedures and franchise agreements, VDOT policies, and Commonwealth statutes alike.

Bill Suter, Utility Coordinator

Bill joined RDA after over a decade at Verizon. He has worked on numerous projects that involved comprehensive utility design, relocation, and coordination with major utility providers including Dominion Energy, Washington Gas, Columbia Gas, Verizon, Cox Communications, Fiberlight, and Fairfax Water, among others. He has over 19 years of experience in outside plant engineering design and relocation of Verizon-VA, LLC copper and fiber optic facilities. His expertise also includes reviewing and interpreting franchise agreements.
