

UNA-EDGE DELIVERS DURABILITY AND ASSURANCE THE ROOF EDGE IS SECURE.

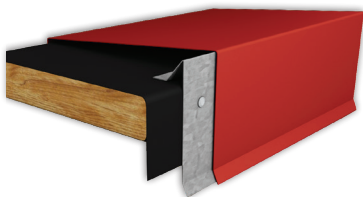

UNA-Edge offers smart and economical choices for roof edge protection. Providing proven, high performance edge solutions makes UNA-Edge an easy choice for meeting building code and giving contractor's a variety of choices for fast installation.

UNA-Edge products are designed for strength and longevity. Firestone Building Products pre-manufactured edge systems meet ANSI/SPRI/FM 4435/ES-1 Standards for wind uplift and are backed by a 20-year Red Shield Warranty.

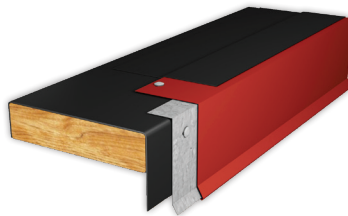

Each system ships complete with cleats, splice plates, fasteners and features pre-slotted holes for ease and precision of installation, guiding proper placement of fasteners to prevent failure from improper installation.

FIRESTONE'S UNA-Edge PORTFOLIO

UNA-Edge™

UNA-Edge FEATURES & BENEFITS

When severe weather strikes, it's the roof edge that helps protect the roof system from failure. Firestone's UNA-Edge products are ANSI/SPRI/FM 4435/ES-1 tested and rated for wind uplift.

- UNA-Edge products meet building code for low-slope roof systems and have decades of proven performance in edge protection.
- Shipped as a complete system with cleats, splice plates and fasteners included.
- A 20-year Red Shield™ Total System Warranty offers a single source warranty and greater long-term protection.
- UNA-Edge products are available in 10 express ship colors, 22 standard and premium colors.
- Meet design needs with 24 Gauge & 22 Gauge Galvanized Steel, .040", .050" & .063" Aluminum materials.
- A 30-Year Kynar 500® Architectural Finish Warranty is included on coil-coated standard colors.
- Prefabricated factory miter corners are available on UNA-Edge products.

UNA-Edge EXPRESS OPTIONS

Firestone's UNA-Edge Program offers quick ship options in 10 express colors for edge systems in 24 Gauge Galvanized Steel, .040" and .050" Aluminum. Orders meeting express criteria ship in 3-4 business days.
